Information Collections Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a

collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before July 14, 2023. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0340.

Title: Section 73.51, Determining Operating Power.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 750 respondents; 834 responses.

Estimated Time per Response: 0.25 to 3.0 hours.

Frequency of Response: Recordkeeping requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in Section 154(i) of the Communications Act of 1934, as amended.

Total Annual Burden: 440 hours.

Total Annual Cost: None.

Needs and Uses: When it is not possible to use the direct method of power determination due to technical reasons, the indirect method of determining antenna input power might be used on a temporary basis. 47 CFR 73.51(d) requires that a notation be made in the station log indicating the dates of commencement and termination of measurement using the indirect method of power determination. 47 CFR 73.51(e) requires that AM stations determining the antenna input power by the indirect method must determine the value F (efficiency factor) applicable to each mode of operation and must maintain a record thereof with a notation of its derivation. FCC staff use this information in field investigations to monitor licensees' compliance with the

FCC's technical rules and to ensure that licensee is operating in accordance with its station authorization. Station personnel use the value F (efficiency factor) in the event that measurement by the indirect method of power is necessary.

OMB Control Number: 3060-0489.

Title: Section 73.37, Applications for Broadcast Facilities, Showing Required.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 365 respondents; 365 responses.

Estimated Hours per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 section 154(i) of the Communications Act of 1934, as amended.

Total Annual Burden: 365 hours.

Total Annual Cost: \$1,331,250.

Needs and Uses: The information collection requirements contained in this collection are found under 47 CFR 73.37(d) which require an applicant for a new AM broadcast station, or for a major change in an authorized AM broadcast station, to make a satisfactory showing that objectionable interference will not result to an authorized AM station as a condition for its acceptance if new or modified nighttime operation by a Class B station is proposed. The information collection requirements under 47 CFR 73.37(f) require applicants seeking facilities modification that would result in spacing that fail to meet any of the separation requirements to include a showing that an adjustment has been made to the radiated signal which effectively results in a site-to-site radiation that is equivalent to the radiation of a station with standard Model I facilities. FCC staff use the data to ensure that objectionable interference will not be caused to other authorized AM stations.

OMB Control Number: 3060-0727.

Title: Section 73.213, Grandfathered Short-Spaced Stations.

Form Number(s): Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 15 respondents; 15 responses.

Estimated Time per Response: 0.5 hours–0.83 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Total Annual Burden: 20 hours.

Total Annual Costs: \$3,750.

Needs and Uses: The information collection requirement contained in 47 CFR 73.213 requires licensees of grandfathered short-spaced FM stations seeking to modify or relocate their stations to provide a showing demonstrating that there is no increase in either the total predicted interference area or the associated population (caused or received) with respect to all grandfathered stations or increase the interference caused to any individual stations. Applicants must demonstrate that any new area predicted to lose service as a result of interference has adequate service remaining. In addition, licensees are required to serve a copy of any application for co-channel or first-adjacent channel stations proposing predicted interference caused in any area where interference is not currently predicted to be caused upon the licensee(s) of the affected short-spaced station(s). Commission staff uses the data to determine if the public interest will be served and that existing levels of interference will not be increased to other licensed stations. Providing copies of application(s) to affected licensee(s) will enable potentially affected parties to examine the proposals and provide them an opportunity to file informal objections against such applications.
